NAME OF COMPANY	EMAIL	TELEPHONE NUMBER	CONTACT PERSON

SUMMARY OF SCOPE

Botswana Telecommunications Corporation Limited (BTC) Limited is a stock listed company trading in Botswana. The company has been providing Telecommunications to the nation since 1980. Over the years the telecommunications industry has continued evolving and Botswana has not been left behind and BTC leads the pack in ensuring Botswana are not missing out in the benefits of technological advancements.

BTC invested in VSAT technology to use it to reach out to communities that were not covered by terrestrial infrastructure. The VSAT technology has stood test of time and has proved to be a very versatile and robust technology offering limitless advantages for such communities and businesses that seek redundancy in their communication services.
